

PHS300 Personal Hotspot

Mobile Broadband – To Go

Ultra Portable

The PHS300 creates a secure Wi-Fi hotspot from broadband-enabled cellular phones and modems. Enjoy the convenience of Wi-Fi without having to search around for a hotspot.

Secure

Built-in firewall and WPA encryption lets you or your group work securely while protecting your bandwidth. The PHS300 meets strict IT standards for Wi-Fi security.

Simple

The PHS300 provides the easiest way to connect to the Internet while on the road—snap in your phone or modem, and you're on line. Plus, you can share that connection with friends and colleagues.

Features

- Fully portable Wi-Fi hotspot
- Get broadband mobile access on any Wi-Fi device
- Compatible with select 3G USB modems and handsets
- Built-in Li Ion battery gives you hours of Wi-Fi virtually anywhere
- Secure, robust, and reliable 802.11 b/g router platform
- Charges handset via USB cable*
- Powered by WiPipe™ technology

* On handsets that support charging via USB

Latest compatibility information available at www.cradlepoint.com

Functional Details

- Wireless networking compliant with IEEE 802.11 b/g standards
- 3G device support for networks that support 'phone-as-modem' or USB modem data plans
- Firewall features Network Address Translation (NAT), and Stateful Packet Inspection (SPI) protects against DoS attacks
- Access control to prevent unauthorized usage
- UPnP (Universal Plug & Play) and ALGs support for Internet applications such as Email, FTP, Gaming, Remote Desktop, Net Meeting, Telnet, and more
- Provides additional security of Enable/Disable SSID, Internet Access Control (Services, URL and MAC Filtering)
- Supports multiple and concurrent IPSec, L2TP and PPTP VPN pass-through sessions
- Flash memory for firmware upgrade, save/restore settings
- Easy management via Web browser (HTTP) and remote management
- Supports 64/128-bit WEP (11b/g), WPA/WPA2, and WPA-PSK/WPA2-PSK
- Compliant with Windows 98SE/NT/2000/XP/2003 Server, Linux and Mac OS

Specifications

Model #:	PHS300 Personal Hotspot
WiFi Standards:	IEEE 802.11b/g
Phone Connection:	Requires 3G handset or modem with USB data connection
Buttons / Switches:	ON/OFF switch; Reset button (located in battery compartment)
LED Indicators:	WLAN Network Connection Power
Dimensions:	4.7" x 2.8" x 0.8 (122 mm x 73 mm x 18.5 mm)
Weight:	4.0 oz. without battery
Certifications:	FCC
Operating Temp:	0 C to 50 C
Battery:	3.6V, 1800 mAH Li Ion
AC Adapter:	Input: 100-240V, 50-60 Hz, 0.5A; Output 5V, 2.5A
